

C-99 Line

ANSI

This line developed with waterproof paper is ideal for manual intermediate wet sanding. Its use is appropriate in the automotive, metalworking and industrial maintenance industries, and auto body and paint shops. Also ideal for the textile industry, for home projects and a wide variety of materials. It's the most versatile and highest-quality sandpaper on the market.

Applications

- For conventional use in factories and workshops for cleaning or preparing the substrates. Metalworking and maintenance industries: cleaning and preparing nonferrous surfaces like copper, aluminum, Zamak, plastics, fiberglass, etc.
- Auto body and paint shops: sanding plaster, putties, universal primers and fillers, plastics, fiberglass, lacquers and clear coats.
- Home projects: metal cleaning, sanding plastics, glass, aluminum, resins, ceramics, paint, lacquer, varnish.
- Perfect for home improvement, repair and maintenance, and also all types of school projects.

Characteristics

- Its high resistance and sanding power facilitate high-demand operations.
- Waterproof paper backing with non-slip properties that allow dry and wet operations.
- Its closed structure ensures quick sanding and a long shelf life.
- Silicon Carbide achieves a unique finish in wet applications.
