ROLLS

SHEETS

Applications

MANUAL SANDING

WET SANDING

ORBITAL SANDERS
1/2, 1/3 OR 1/4 A SHEET

Applications

- For operations in blacksmith shops, pans and plumbing, and for general use that requires high-quality finishes.
- Can be used manually or with orbital sanders.
- Ideal for intermediate and final finishing of ferrous and nonferrous metals, for the handling of iron and steel metals by working or shaping the metal, and is even functional on wood.
- Needed for the removal of sharp copper or other steel edges in plumbing.

Characteristics

- Effective polishing of the workpiece with less shelling, longer duration, and comes in a sheet and half sheet with precut guides.
- Greater performance and resistance to clogging.
- More flexibility.
- Waterproof.
