EXTRA COARSE / COARSE / MEDIUM / FINE / EXTRA FINE
HEAVY POLISHING / INTERMEDIATE FINISHING / FINAL FINISHING

Applications

- For general use in the wood and metalworking industries to prepare natural surfaces for finishing or paint removal, and for renovating the substrates.
- Designed for operations that require high-quality and performance finishes, operating on wood and metal substrates.
- Can be used manually or with orbital sanders.
- Ideal tools for cleaning and polishing wood, plastics, lacquers, paints, and ferrous and nonferrous metals.
- Wide range of grades allows for heavy, intermediate and fine sanding operations.

Characteristics

- Provide optimum-quality finishes.
- Closed structure increases its sanding power.
